## Direct Dialing In Glades On November 20

Charles D. Leonard, Glades manager of Southern Bell Telephone and Telegraph Company, would like to remind all Glades residents of the start of the Direct Distance Dialing system which goes into effect on Sunday, November 20, at 2:00 a. m. This system is going into effect following several years of planning, many weeks of hard and diligent work and thousands of dollars of equipment.

Long distance calls from the Glades area will be trunked through the Belle Glade office to the DDD switching and billing equipment in the new toll building at 325 Gardenia Street, West Palm Beach.

With the DDD system, the entire country is divided into numbered areas. Belle Glade-Pahokee Area Code number is 305. Glades area telephone users will be able to dial any of the 80 million phones in the continental United States. Calls within the home area (305) will require only eight turns of the dial—one more than a local call.

Mr. Leonard points out that the service is engineered only for station-to-station long distance calls. There will be no change in rates because of it. "It's fast, convenient and easy to use," he added.

Here's how DDD will work on and after November 20 from Glades area telephones:

1. Dial "1".
2. Dial the Area Code, if it is different from your own.
3. Dial the telephone number you want to reach.
4. Give the operator your complete number, when she asks for it.

Leonard said, "Subscribers will still dial 'Operator' for person-to-person calls, credit card calls, collect calls and calls from pay telephones, or other calls that require her personal help."

## Beans \$8.10, Corn At \$2.00, Celery \$3.75

Green snap beans reached a peak price for the fall season one day last week at Pioneer Growers in Belle Glade when they were auctioned for \$8.10 per bushel hamper. There were others on the lake in the past few days that sold for \$7.00 and one offering in Canal Point on Monday of this week brought the grower \$6.65 per hamper.

The sweet corn price has been steady for the past few days at \$2.50 per hamper but Wednesday morning of this week the price dropped to \$2.00 per bushel. One broker classed the corn "just as fancy as it can be."

Celery along about the start of the fall season was in the doghouse as far as price was concerned, bringing only \$1.25 and \$1.50 per crate. That has all changed this week with the holiday season just around the corner and Thanksgiving on the calendar for next week. Wanted sizes are being quoted this week at \$3.75 per crate—a price that will bring the grower a handsome profit.

## Farm-City Week Will Aid Understanding

Commissioner of Agriculture Doyle Conner has called on farmers and non-farmers alike to take steps to better understand each other.

One way, the commissioner said, would be for urban dwellers to take advantage of Farm-City Week which begins Friday (November 18) and see for themselves just how the farmer produces commodities for market.

Farm-City Week was initiated 12 years ago for the sole purpose of helping to bring about a better understanding between rural and urban segments of society in this country and Canada, according to Conner. Theme for this year's observance is "Agriculture is Your Business."

The commissioner said that farmers have been unjustly criticized for the continued rise in costs of food. "Production costs have increased about 11 percent since 1960," he stated, "while farm prices actually are still below the 1947 level and are up only four percent."

He also pointed out that retail food costs went up 15 percent between 1947 and 1963, but prices received by the farmers declined 15 percent during that same period.

If farm prices had increased at the same rate as other cost of living items have risen within the last two decades, American consumers would be spending many millions of dollars more each year for food than they are today, Conner said.

Civic clubs and other organizations throughout the state are planning special programs on agriculture and guided tours of agricultural enterprises. Conner termed these "excellent activities" to acquaint the general public with the farmer's problems as well as his production methods.

"Agriculture is Florida's biggest industry and I hope that as many urban dwellers as possible will take the opportunity to see firsthand just how complex and encompassing our agricultural industry is," Conner said.

## Southern Bell And Workers In Agreement

The Southern Bell Telephone and Telegraph Company and the Communication Workers of America reached agreement on a new contract November 14 affecting more than 65,000 of the firm's employees in nine states.

The agreement includes a general wage increase and improvement in Hospitalization, Pension, and other benefit plan provisions covering all employees. It covers thirty-six months with a wage re-opener eighteen months from the effective date.

The overall cost to Southern Bell of the wage increase and other changes will be approximately \$25.5 million dollars annually. The cost in Florida will be about six million dollars a year.

Southern Bell Personnel Vice President, W. A. Thompson, said, "The new agreement is fair to employees, the telephone using public, and the owners of the business. Its provision are based on recent surveys which were made of wages and other working conditions throughout the area we serve."

In Florida about fourteen thousand employees are affected by the agreement.

## Christmas Mail Rules Announced

Postmaster Edythe Smith of the Canal Point Post Office announced this week that all first class mail, personal sound recordings and parcels weighing five pounds or less and measuring not more than 60 inches in length and girth combined, will be airtfried on a space available basis between the United States and all military post offices overseas.

Also, under Public Law 89-725—the Dulski Military Mail Act—second class publications such as newspapers and magazines published weekly or more often, and featuring current news or interest to the military, will be airtfried from San Francisco to the armed forces serving in Viet Nam.

To speed up separation and delivery of these parcels falling in the above mentioned categories, Postmaster General Lawrence F. O'Brien directed that all parcels be clearly marked upon acceptance at the post office with the letters "A.M." (surface airtmail). This will eliminate the task of reweighing and measuring the parcels at the San Francisco Concentration Center prior to the patch so that Nam or other overseas military post offices.

Postmaster Smith also reminded mailers that Christmas parcels weighing five pounds or under

## A Ruling Law

There is a law that rules mankind, It rules with power, we know; For in this life we reap, we find The very things we sow.

Our actions are the seeds we sow; We sow while on our way, They ripen as we onward go; We reap them day by day.

A frown of hate upon our face When friends are passing by, Will make them shun our dwelling place No smiles will meet our eye.

When acts of self-denial we sow To help and bless mankind, Then joy and peace for us will grow, A happy life we find.

When with a smile of love I greet, The ones I chance to see; A loving smile my eye will meet, For love returns to me.

## Stetson Gets \$2,000 Grant From Sears

An unrestricted grant in the amount of \$2,000, was presented today to Stetson University by Larry W. Parrish representing the Sears-Roebuck Foundation.

The check to the local school was part of \$1,000,000 in grants being distributed this week by the Foundation, to private colleges and universities across the nation. Six other colleges in Florida are also receiving grants.

"Altogether, more than 600 colleges and universities from coast to coast will participate in the program this year," Mr. Parrish said. The purpose of the Aid to Higher Education program, which was instituted five years ago, is to provide systematic financial support for non-tax supported institutions of higher learning.

"We here at Stetson are extremely pleased to accept this grant from the Sears-Roebuck Foundation," Dr. J. Ollie Edmunds, president of Stetson said. "It is private donations such as this which help keep strong the private colleges and universities. The foresight of the Foundation in providing this money is an investment in today's youth."

The monies allocated under the program are not restricted as to use. The college administration is free to apply them to areas of greatest need.

"In addition to the direct-grant program, the Sears-Roebuck Foundation this year will invest an additional \$800,000 in various scholarship and fellowship programs, bringing its total expenditure for higher education to more than \$1,800,000," Mr. Parrish said.

Other Florida schools receiving grants were Barry College, Miami; Florida Southern College, Lakeland; Orlando Junior College; Rollins College, Winter Park; the University of Miami; and the University of Tampa.

## Festival Is Planned For P. B. County

Plans are now underway for the realization of a winter festival in Palm Beach County that may in time rival the Gasparilla of Tampa and the Mardi Gras of New Orleans.

At the request of Judge McIntosh, the Executive Committee of the South Florida Fair and Exposition appointed a Fiesta Committee to assist in effectuating the plans he outlined to the Fair Committee.

The plans for the fiesta include the election of a king and queen to reign over the festival; A fleet of boats to rendezvous in Palm Beach and escort the ship of the king and queen to its dockage, from which the king and queen will then be escorted to the site of the coronation. The coronation ceremony will be a beautiful and colorful pageant with an historical basis but sufficient imagination to lend color, excitement and adventure to the ceremony. The king and queen of the festival will be feted at a reception which is expected to be attended by many social and civic leaders of the state as well as the community. The following week-end the king and queen will be featured in the South Florida Fair and Fiesta parade, which is expected to be larger and more beautiful than last year. The coronation ball, featuring a nationally prominent orchestra, will be held the night following the parade. The calendar of festivities will culminate with the South Florida Fair and Exposition, which opens January 27, 1967.

The coronation ceremony, the boat procession, the parade and South Florida Fair will be open for public participation and enjoyment. The king and queen reception and coronation ball may

## Baptists Boost Plans For College

An new college was born Wednesday, November 9th. At their annual meeting in Pensacola the Florida Baptist Convention voted to activate the board of trustees for the new Baptist college to be built in Palm Beach Gardens and to enter into a state-wide campaign to raise \$1,000,000 for the new school.

The 1300 messengers to the convention acted upon a motion by the college committee of the Palm-Lake Baptist Association to activate the board of 21 trustees thus enabling them to proceed at once with the development of the college.

The trustees will hold their organizational meeting in Jacksonville on December 8th at which time a chairman, vice chairman and committees necessary to establish the college will be appointed.

Among the trustees are Dr. Jess Moody, chairman of the local college committee, Rev. J. C. Walters, Jr. of Lake Worth, Mrs. James Nemes of Palm Beach and Dr. Donald Warren of West Palm Beach.

Dr. Moody said he was gratified by the decision of the convention. The college committee, he said, will now go forward to complete its campaign in Palm Beach County to raise the \$1,500,000. The amount raised thus far is \$770,000.

"This is the action that we needed," Dr. Moody said. "Now the State Baptist Convention will build the college. The college committee had gone as far as it could go in raising money without positive action from the convention."

## Pantry Shower For The Stewarts

A pantry and kitchen shower was held on Friday in the parlor of the Canal Point Baptist Church honoring Rev. and Mrs. Lawrence Stewart on their return from the Florida Baptist Convention in Pensacola.

The shower was held under the direction of Mrs. Perry Hall, assisted by Mrs. Charles Brown, Mrs. James Weeks, Mrs. Ray Urry, Mrs. Cecil Hall, Mrs. Arnold Sprague and Mrs. Cecil Rogers.

## NOTE OF THANKS TO THE COMMUNITY

We would like to express to our many friends and the members of the church, our deep appreciation for the most gracious Pantry Shower we found, when we arrived at home this past Monday evening. This is the fourth time you have done this gracious act and this was by far the most beautiful. Your sweetness is a real cup of joy to us. The goodness of the good people of this community and Canal Point Baptist Church will always be a fond remembrance to our souls. May our righteous God deal kindly with each of you, is our prayer.

The Lawrence Stewart's

This gives us the authority we need to move ahead."

In 1964 the convention selected the Palm Beach Gardens site donated by John D. MacArthur, president, Bankers Life and Casualty and authorized a fund-raising campaign for \$1,500,000. The convention heretofore had said that \$1,500,000 would have to be raised before it would activate the board of trustees.

Wednesday's action set the board of trustees in operation after \$770,000 had been raised.

# Now—U. S. Savings Bonds Pay More Interest

## 4.15% when held to maturity

### Higher interest on the Bonds you already own, too!

U.S. Savings Bonds are a better way to save than ever

Because now all Series E and Series H Bonds bought after December 1, 1965, will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966.

And your outstanding Bonds will earn more, too, from now on. So, you don't have to cash in your present Bonds to get the attractive new rate.

Ask about buying Bonds where you work or bank. For America's future. And yours.

"Today, none of us can remain aloof on the sidelines."

"Today, above all, is a time for all Americans to dedicate themselves to the spirit that animated the Minutemen of Concord—who serve as a symbol of the Savings Bond program. For today, as at the founding of our nation, it is freedom which is again at stake. Not all of us are called upon to fight in the jungles of Vietnam, but while our men are there, in the front line of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. One sure way is open to all Americans through the Savings Bond program."

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
